My most elevated & beloved ancestors,

I call upon my ancestors who have courageously walked this earth before me and are for my highest good only.

I would first like to express my gratitude for protecting, guiding &_____ me each and everyday. I ask that you help me_____

_____and give me the strength needed to achieve what I have asked your support with.

Clear any blockages and barriers preventing me from reaching my highest potential. Destroy negativity spoken by myself and others as you clear my path for success.

Reveal your goodness in my life daily. I asked that you seek my attention by showing me_____ (**ex. red bird, feather, numbers**) when you want to communicate with me.

I am forever grateful and honored to be your descendent.
Love and high praise.
